The Pennſylvania GAZETTE.

Edmund Physick

Containing the freſheſt Advices Foreign and Domeſtick.

Laſt Night arrived the Northern Poſt, by whom, in the publick Prints from England, *we have the following freſh Advices*, viz.

MADRID, July 3. O. S.

IT is ſaid, that Mr. Keene, the Britiſh Plenipotentiary, has declar'd to the Marquis de Villarias, That the laſt Expreſs he receiv'd from his Court, had brought him an Order from his Britannick Majeſty to ſuſpend the Conferences. Since the Arrival of the ſaid Expreſs, and of another which the Court received at the ſame Time from Don Giraldino, the Spaniſh Miniſter at London, freſh Orders have been ſent to haſten the military Preparations, ſo that a Rupture ſeems unavoidable. All the General Officers are order'd to repair to their Poſts without Delay. Troops are alſo ſent to reinforce thoſe already at Gibraltar; and 'tis ſaid, that thoſe which are aſſembled in Gallicia will alſo be reinforc'd with ſome Regiments, in order to watch and guard the Coaſt of that Province: But there are ſome who think they are to be put on board Tranſports, to be carry'd elſewhere; becauſe 'tis affirm'd that Orders have likewiſe been diſpatch'd, to lay an Embargo upon all Ships. According to Advices from the Ports, there will be at leaſt 28 or 30 Men of War ready to ſail before the End of July.

July 13. Since the laſt Declaration given in by Mr. Keene, the Britiſh Miniſter, freſh Orders are diſpatch'd to all the Ports, to repair and augment the Fortifications, as well as to equip all the Men of War fit for Service; and the Orders for compleating the Land Forces are renewed. The King ſeems to act wholly in Concert with France, which Court has not yet adviſed ours to inſiſt no longer on the Recal of the Britiſh Fleet. The Count de la Mark, who continues to have frequent Conferences with the King and Queen of Spain, having lately receiv'd an Expreſs from his Court, went and read the Diſpatches that came by it to their Majeſties, without communicating one Word to the Secretaries of State; which gives Room for a Conjecture that ſome ſecret and very important Affair is in Agitation.

Portſmouth, July 26. Laſt Monday Afternoon, Mr. Vernon, Vice Admiral of the Blue, in the Burford, in Company with the Lenox, Kent, Elizabeth, Strafford, Louiſa, Worceſter, Norwich and Pearl, left St. Helens, and ſail'd to the Weſtward.

Paris, Auguſt 15. Fourteen Men of War are actually equipping at Toulon, two of which are deſign'd to cruize before the Ports in the Levant.

LONDON, July 28.

Yeſterday Ships were permitted to clear out at the Cuſtom-Houſe as uſual, and Orders were ſent to Graveſend to permit them to paſs.

We hear that two Spaniſh Ships in the River are excepted in the Order for taking off the Embargo.

Auguſt 4. Letters from Madrid bring, that if the Court of Great Britain ſhall ſtill refuſe to execute the Conditions of which Spain demands the Accompliſhment, all the Effects of the South Sea Company in Spain would be ſequeſter'd; and that two Advice Ships were actually ſent from Cadiz, with Orders proviſionally, to ſhut up there the Factories of that Company, and to entirely ſuſpend the Commerce with Great Britain for Negroes; and that very great military Preparations were making all over Spain, as well by Land as Sea.

They write from Vienna, that there has been an Action between the Imperialiſts and the Turks, in which the latter ſeems to have gain'd the Advantage, the former having loſt General Larfner, Count Caraffa, the young Prince of Waldeck, and the Prince of Heſſe-Rhinfelds, who were kill'd, and the Prince of Waldeck and Count Daun are wounded.

'Tis certain that ſome Overtures have been made ſince our laſt, for accommodating the Difference with this Court and Spain.

The Merchants have receiv'd Advice that Admiral Haddock has taken near Cadiz a Spaniſh Ship with French Colours.

On Saturday was launch'd at Mr. Bud's Dock, the Totneſs, a fine large Ship, which is ſaid to be fitted out with all poſſible Expedition, with Letters of Marque, to make Repriſals on the Spaniards.

Tueſday, Capt. Sunderland, of the Griffin, formerly one of his Majeſty's Fire Ships, receiv'd his Letter of Marque to make Repriſals on the Spaniards, which Ship will ſail with the utmoſt Expedition.

The Tower Galley, Wingfield, who has got a Letter of Marque, is ſail'd for Newfoundland.

The proper Officers are gone to different Parts of England, to view the ſeveral Forts, &c.

Aug. 10. Yeſterday both Houſes of Parliament met according to their Prorogation, and were farther prorogued to the 18th of October next.

Aug. 11. We hear from Paris, that the Earl of Waldgrave, the Britiſh Embaſſador, has preſented a Memorial to the Court, relating to the Differences between the Courts of London and Madrid, and the Orders iſſued by the King of Great Britain for making Repriſals on the Spaniards. His Excellency expects an Anſwer to that Memorial forthwith, becauſe it will probably decide the Queſtion, Whether Peace or War between Great Britain and Spain? We are aſſured that the Earl has declared, in regard to the Repriſals, that the King his Maſter did not intend to break openly with the King of Spain; and that the Treaties ſubſiſting between them, ſtipulating, that the Repriſals which the two Nations may make upon each other, ſhall not be look'd upon as a Declaration of War, or a Rupture, his Britannick Majeſty was reſolved to conform religiouſly to the Tenour of the Treaties in that Reſpect; that as he could not refuſe to his Subjects the Permiſſion to make Repriſals, which they have ſo long deſired, he hoped that the Court of Madrid would not let Matters proceed to greater Extremities, but reſolve at laſt to grant to the Britiſh Nation the Satisfaction deſired.

Orders

Orders have been ſent to the War Office, for adding 25 Men, together with a Lieutenant, Serjeant, Corporal, and Drum to each Troop of Horſe and Dragoons in Great-Britain, which in the whole will amount to about 1300 Men.

The Rt. Hon. the Earl of Crawford being much wounded in the late Battle, was brought into Belgrade, under an Eſcorte of ſix Troopers, and put under the Care of the moſt eminent Surgeons.

It is reported, that the Germans loſt upwards of 10,000 Men in the late Action.

We are aſſur'd that the Friendſhip, Capt. Herbert, and the Lovely Betty, Capt. Vane, both in the Service of the Jamaica Merchants of this City, are fitted out in the beſt Manner, and have Letters of Marque granted them to make Repriſals on the Spaniards, and will ſail this Week for Jamaica.

Yeſterday it was reported, that the Ruſſian Army had ſurrounded that of the Turks near the Dnieſter, and kill'd near 40000.

The Maſter of a Ship arriv'd from Oporto, met about 12 Days ago, off Cape Finiſterre, Sir Chaloner Ogle, with the Squadron under his Command; and was inform'd that their Commiſſion was open'd, which was, to take, ſink, or deſtroy, all Ships, &c. belonging to his Catholick Majeſty, and that they ſhould make all haſte imaginable, in order to cruize off the Canary Iſlands.

BOSTON, Sept. 24. By a Scooner which arrived laſt Week from Newfoundland, we hear, that the ſame Day ſhe came away from thence, an Engliſh Man of War arrived there, the Captain of which ſent a Letter to the Lord of the Harbour, in which he told him the agreeable News that Admiral Haddock had taken one of the Galleons, and that it was not doubted but that he would get more of them before they got into the Spaniſh Harbour.

By private Letters and Paſſengers in Capt. Hill, we hear, that there ſeems to be of late a good Underſtanding between the leading Men of the Court and Country Parties, and that the publick Affairs are managed with the utmoſt Secrecy. That a very important Affair was upon the Point of being diſcovered, in which Great Britain was nearly concerned. That a general War was tho't unavoidable. That we have 50 Men of War looking out for Spaniſh Galeons, and that Reports concerning them upon the Change of London, were as variable as they are here; one Day Advice being brought that they are taken, the next that they are caſt away, the next that they will not arrive this Year, and then that they are all got ſafe into ſome Spaniſh Port; ſo that inſtead of aſking (upon Change) *What is the News of the Day?* the Enquiry is, *What is the Lye of the Day?*

That the Sallee Men have again declared War with Great Britain.

Extract of a Letter from Liſbon, dated Auguſt 25.

" Letters from Oporto ſay, that the Spaniards are laying a " ſtrong Boom over the Harbour of Ferole, and making it as de- " fencible as poſſible for fear of a Viſit; they have raiſed ſix " Batteries, and have an Army of 12 or 15 thouſand Men both " Horſe and Foot, of their beſt Troops in the Neighbourhood. " Juſt now is brought in a Spaniſh Sattee laden with Powder, &c. " valued at Six Thouſand Moidores.

Extract of the Proceedings of the General Aſſembly of the Colony of New-York, September 18. 1739.

COLL. Schuyler communicated to the Houſe, a Letter from the Commiſſioners appointed to erect a Stone Fort, &c. at Albany, ſignifying, That as there is a Surplus of Money received for that Service, they have enquired of a proper Place to build a Fort at Saragtoga; and that they are ready to employ the ſaid Overplus for that Service forth-with, if approved of.

He laid likewiſe before the Houſe, from the ſaid Commiſſioners, an Account of the Money expended by them in building the Fort at Albany, &c. amounting to the Sum of 3628 l. 16 s. and that they compute 100 l. will be neceſſary to build Carriages for the great Guns; ſo that there will, after that, remain in their Hands about the Sum of 271 l. 4 s.

Mr. Speaker, from the Chair, communicated to the Houſe a Letter from his Honour the Lieut. Governor. Which is in the Words following, *viz.*

SIR, *New-York, 18th Sept.* 1739.

HEerewith I ſend you the Eſtimate that the Houſe requeſted; and now I think you have every Thing before you that is neceſſary for your own Convenience. But, I hope, when you conſult that, you will not neglect to make honourable Proviſion for the Support of his Majeſty's Government, in as ample a manner as former Aſſemblies have done; upon thoſe Terms you ſhall always find me ready to paſs ſuch Laws as may be for the Good of the Country.

The Victuallers of Oſwego complain, That the Collectors of the Duties for the Support of that Place, have been very dilatory in paying their Warrants, whereby they are great Sufferers: This Evil ſhould be enquired into, redreſſed for the Time paſt, and prevented for the Time to come. I deſire you will communicate this to the Houſe.

I am, Sir, *Your moſt obedient humble Servant,*

GEORGE CLARKE.

To Adolph Philipſe, *Eſq;*
Speaker of the Aſſembly,

In the ſaid Letter was incloſed a further Eſtimate of Building and Repairing Fortifications. Which being likewiſe read, is in the Words following, *viz.*

A new Fort to be built in the Mohawks Country, on the Plan of that at Schenectady, 800 l.

A Fort to be built at Tierondiquat, 250 l.

A Fort to be built at or beyond Saragtoga, 500 l.

Repairing or Rebuilding the Barracks in Fort-George, that were not repaired when the reſt of the Fort was, 500 l.

Proviſion for 20 Soldiers to be added to the 20 now at Oſwego, and for 20 Men of the Six Nations, who are to be invited to reſide there, to ſtrengthen that Garriſon, and ſix great Guns ſent thither.

Bedding and Ammunition for all the Garriſons, till I am ſupplied from Home.

It will be neceſſary to have a Smith, with four or five intelligent Perſons, always reſiding in the Sennecaes Country, to keep the Indians ſteady in our Intereſt.

The Chief of the Sennecaes being gone from their Caſtle, and now actually ſettled at Tierondiquat, to prevent the French from poſſeſſing themſelves of that Place, have given Notice thereof to the Commiſſioners for Indian Affairs, with an Invitation for them to ſend ſome Perſons to take Poſſeſſion thereof in the King's Name, no Time ought to be loſt therein; and upon a Vote of Credit, I believe proper Perſons may be got to go there, and Goods procured to reward the Chief of the Sennecas.

Col. Schuyler alſo communicated to the Houſe a Letter from the Commiſſioners appointed to erect a Fort, &c. at Schenectady, dated the 10th Inſtant, with an Account incloſed, by which it appears that they have laid out for that Service, the Sum of 803 l.

Col. Schuyler laid before the Houſe an Account from the Commiſſioners of the Duties on Strouds and Rum tranſported for Sale to the French and Indians, by which it appeared, that they have received, from the Year 1731, to Sept. 10, 1739, the Sum of 3839 l. 5 s. and that there was beſides, ſtanding out, the Sum of 892 l. 11 s. 10 d. And by Receipts it appears that they have paid the Sum of 3839 l. 5 s. So that they are in advance 461. 8 s. 8 d.

The Account of Diſburſements for Repairing the Houſe at Oſwego laſt year, amounts to 219 l. 0 s. 2 d. ob.

In the Afternoon, The Houſe reſolved into a Committee on the Lt. Governor's Speech. After ſome Time ſpent therein, Col. Morris reported, That it was agreed to allow 1200 l. to put the Battery in the City of New-York, in a Poſture of Defence. And which was agreed to by the Houſe, *Nem. Contradicente.*

Sept. 20. The Houſe Reſolved into a Committee on his Honour's Speech, wherein it was agreed that a Fort ſhould be built in

in the Mohawks Country. But a Debate arising, Whether the Sum to be allow'd should be 500 l. or 600 l. It was put to the Vote and carried for 600 l. by 12 against 11, in the following manner,

For 500 l.		For 600 l.	
Mr. Cornell,	*Mr. Le Count,*	*Mr. Speaker,*	*Mr. Clarkson,*
Mr. Jones,	*Mr. Purdy,*	*Mr. Winne,*	*Col. Moore,*
